ONE DAY THAT WILL LAST A LIFETIME

Join us for a life-changing day of education, motivation, empowerment and HUMOR, where you'll learn about the newest medications and devices to help you take control of your diabetes, or to help somebody who is. You will hear about the latest research and practical tips and tricks on how to live a long and healthy life with diabetes. With TCOYD you can learn and laugh at the same time, while connecting with people who get YOU. Our all-star cast of diabetes experts (many who live with diabetes themselves) are here to answer all of your questions while igniting motivation, offering hope and changing your life with diabetes forever.

MEET OUR FEARLESS LEADER WHO GETS IT!

I'm Steve Edelman, founder of TCOYD, and I was diagnosed with diabetes when I was 15 years old. I was given 20 years to live, but instead of accepting that I went into medicine to learn how to conquer this condition and to bring the important messages about living a long and healthy life with diabetes directly to those most affected by it. I've been living with diabetes for nearly 50 years now and have dedicated my career to educating and empowering others with this condition to become active participants in their healthcare.

We are with you through the highs and lows!
